

**NETS For Students
Profiles for Technology-Literate Students
Grades PK-2**

To live, learn, and work successfully in an increasingly complex and information-rich society students must use technology effectively. Within a sound educational setting, technology can enable students to become: capable information technology users, information seekers, analyzers, and evaluators, problem solvers and decision makers, creative and effective users of productivity tools, communicators, collaborators, publishers, and producers, and informed, responsible, and contributing citizens.

Prior to completion of Grade 2, students will: ***Curriculum Activity and Description***

<p>1. Use input devices (e.g. mouse, keyboard, remote control) and output devices (e.g. monitor, printer) to successfully operate computers, VCRs, audiotapes, telephones, and other technologies. (Standard 1)</p>	
<p>2. Use a variety of media and technology resources for directed and independent learning activities. (Standards 1, 3)</p>	
<p>3. Communicate about technology using developmentally appropriate and accurate terminology. (Standard 1)</p>	
<p>4. Use developmentally appropriate multimedia resources (e.g. interactive books, educational software, elementary multimedia encyclopedias) to support learning. (Standard 1)</p>	
<p>5. Work cooperatively and collaboratively with peers, family members, and others when using technology in the classroom. (Standard 2)</p>	

Prior to completion of Grade 2, students will:

Curriculum Activity and Description

<p>6. Demonstrate positive social and ethical behaviors when using technology. (Standard 2)</p>	
<p>7. Practice responsible use of technology systems and software. (Standard 2)</p>	
<p>8. Create developmentally appropriate multimedia products with support from teachers, family members, or student partners. (Standard 3)</p>	
<p>9. Use technology resources (e.g. puzzles, logical thinking programs, writing tools, digital cameras, drawing tools) for problem solving, communication, and illustration of thoughts, ideas, and stories. (Standards 3,4,5,6)</p>	
<p>10. Gather information and communicate with others using telecommunications, with support from teachers, family members or student partners. (Standard 4)</p>	

NETS For Students Profiles for Technology-Literate Students Grades 3-5

To live, learn, and work successfully in an increasingly complex and information-rich society students must use technology effectively. Within a sound educational setting, technology can enable students to become: capable information technology users, information seekers, analyzers, and evaluators, problem solvers and decision makers, creative and effective users of productivity tools, communicators, collaborators, publishers, and producers, and informed, responsible, and contributing citizens.

Prior to completion of Grade 5, students will: ***Curriculum Activity and Description***

<p>1. Use keyboards and other common input and output devices (including adaptive devices when necessary) efficiently and effectively. (Standard 1)</p>	
<p>2. Discuss common uses of technology in daily life and the advantages and disadvantages those uses provide. (Standards 1, 2)</p>	
<p>3. Discuss basic issues related to responsible use of technology and information and describe personal consequences of inappropriate use. (Standard 1)</p>	
<p>4. Use general purpose productivity tools and peripherals to support personal productivity, remediate skill deficits, and facilitate learning throughout the curriculum. (Standard 3)</p>	
<p>5. Use technology tools (e.g. multimedia authoring, presentation, Web tools, digital cameras, scanners) for individual and collaborative writing, communication, and publishing activities to create knowledge products for audiences inside and outside the classroom. (Standards 3, 4)</p>	

Prior to completion of Grade 5, students will:

Curriculum Activity and Description

<p>6. Use telecommunications efficiently and effectively to access remote information, communicate with others in support of direct and independent learning, and pursue personal interests. (Standard 4)</p>	
<p>7. Use telecommunications and online resources (e.g. email, online discussions, Web environments) to participate in collaborative problem-solving activities for the purpose of developing solutions or products for audiences inside and outside the classroom. (Standards 4, 5)</p>	
<p>8. Use technology resources (e.g. calculators, data collection probes, videos, educational software) for problem solving, self-directed learning, and extended learning activities. (Standards 5, 6)</p>	
<p>9. Determine when technology is useful and select the appropriate tool(s) and technology resources to address a variety of tasks and problems. (Standards 5, 6)</p>	
<p>10. Evaluate the accuracy, relevance, appropriateness, comprehensiveness, and bias of electronic information sources. (Standard 6)</p>	

NETS For Students Profiles for Technology-Literate Students Grades 6-8

To live, learn, and work successfully in an increasingly complex and information-rich society students must use technology effectively. Within a sound educational setting, technology can enable students to become: capable information technology users, information seekers, analyzers, and evaluators, problem solvers and decision makers, creative and effective users of productivity tools, communicators, collaborators, publishers, and producers, and informed, responsible, and contributing citizens.

Prior to completion of Grade 8, students will: Curriculum Activity and Description

<p>1. Apply strategies for identifying and solving routine hardware and software problems that occur during everyday use. (Standard1)</p>	
<p>2. Demonstrate knowledge of current changes in information technologies and the effect those changes have on the workplace and society. (Standards 2)</p>	
<p>3. Exhibit legal and ethical behaviors when using information and technology, and discuss consequences of misuse. (Standard 2)</p>	
<p>4. Use content-specific tools, software, and simulations (e.g., environmental probes, graphing calculators, exploratory environments, Web tools) to support learning and research. (Standards 3,5)</p>	
<p>5. Apply productivity/multimedia tools and peripherals to support personal productivity, group collaboration, and learning throughout the curriculum. (Standards 3,6)</p>	

<i>Prior to completion of Grade 8, students will:</i>	<i>Curriculum Activity and Description</i>
<p>6. Design, develop, publish, and present products (e.g., Web pages, videotapes) using technology resources that demonstrate and communicate curriculum concepts to audiences inside and outside the classroom. (Standards 4,5,6)</p>	
<p>7. Collaborate with peers, experts, and others using telecommunications and collaborative tools to investigate curriculum-related problems, issues, and information, and to develop solutions or products for audiences inside and outside the classroom. (Standards 4, 5)</p>	
<p>8. Select and use appropriate tools and technology resources to accomplish a variety of tasks and solve problems. (Standards 5,6)</p>	
<p>9. Demonstrate an understanding of concepts underlying hardware, software, and connectivity, and of practical applications to learning and problem solving. (Standards 1,6)</p>	
<p>10. Research and evaluate the accuracy, relevance, appropriateness, comprehensiveness, and bias of electronic information sources concerning real-world problems. (Standards 2,5,6)</p>
